NETWORKING THE POSSIBILITIES

STATEN ISLAND, NY, DECEMBER 23, 2009: The Troi.net website has undergone a full revamp to ensure that our clients, partners and affiliates receive the recognition that they deserve. At Troi.net we face new challenges everyday by creating comprehensive networks that serve the needs of multiple locations, businesses and organizational growth. Our Troi.net team of experts will customize solutions suited to meet the needs of today's business marketplace. "We are excited to add troi.net innovative portfolio of products and services to our data offerings," said Wayne Roye, C.E.O of Troi.net. "Our relationship with our partners, affiliates and associates allow us to offer our clients a truly diverse solution to their high demand of quality service and mission critical data requirements. "Whether they seek open source solutions, virtual networking alternatives or any business to business problem

solving, Troi.net ability to customize a flexible solution will be a major difference as our customers merit from our expertise." Troi.net specializes in the fusion of business and technology. We accelerate business productivity and enhance client satisfaction through a dedicated focus on our clients and through customized technology design, implementation and support solutions such as consultation, project management, manufacturer-certified training, carrier services, telephony, equipment procurement, local and wide area network implementation and managed services. We are a Cisco, Microsoft, 3COM, Novel, VMware and Citrix partners. To learn how we can empower your company, visit www.troi.net.
